GERHARD GIVES INTERVIEW

WASHINGTON, June 16.—Ambassador Gerard cabled today his first informal report on how the last American note to Germany was received in official quarters in Berlin. He spoke of its reception as friendly and courteous and said the unanimous opinion seemed to be that the document afforded a basis for diplomatic negotiation and settlement. Long extracts from German newspaper editorials most of which have already been published here, were transmitted by the ambassador. There is a friendliness of tone in them and an absence of the bitterness which was previously characterized some of the newspaper utterances.

Ambassador's Comment Brief.
The ambassador's own comment was brief and of a general character bearing out press reports of the favorable impression made by the note, especially because the published reports had reached Germany that the United States would send something in the nature of an ultimatum. Mr. Gerard had no intimation as to when a reply would be received or what its specific character would be. It was thought he had merely stated his impressions based on the general trend of comment in Berlin official quarters. Officials here have been much encouraged by the manner in which the German press and officials have regarded the American communication and believe that the way toward an understanding is much clearer than it has been.

The arrival of Dr. Anton Meyer-Gerhard in Norway was noted here today and it is supposed he will pay before high officials of the German government before the end of the week. Material from Count von Bernstorff, the German ambassador, which it is thought will help toward clarifying the situation and producing an amicable adjustment of the controversy.

Predict Peaceful Settlement.

London, June 16.—A peaceful settlement of the questions which have arisen between the United States and Germany is predicted by Dr. Anton Meyer-Gerhard, who is on his way from the German embassy at Washington to Berlin to explain the situation to the German government. An interview accredited to Dr. von Meyer-Gerhard is published by the Frankfurter Zeitung and forwarded to London by the Amsterdam correspondent of Reuters' Telegraph company. The interview was obtained yesterday at Christiansund, Norway, when the steamer United States, on which Dr. Meyer-Gerhard was a passenger, touched at that port.

"The conflicting views existing between Berlin and Washington regarding the Lusitania affair rest on a misunderstanding and will be settled peacefully," Dr. Gerard is quoted as saying. "The conflict between President Wilson and Secretary Bryan is of old origin and arose from quite different causes than the Lusitania affair. The breach was rendered inevitable by the independent procedure of the president, who rejected the counsels of his responsible minister and drafted the latest American note to Germany according to his own ideas. As President Wilson framed the reply to Germany without even consulting Mr. Bryan, the latter had no other recourse but to request that he be released from office."

"The tension between the two must therefore be regarded as entirely a domestic affair."

Peace Desire Prevails.

"The feeling of the American people and government towards Germany is not at all bellicose, on the contrary there prevails a desire for peace."

"It is not true, as trumpeted abroad, that the American fleet has been concentrated for participation in the European naval war. The feeling among German-Americans is splendid, their love for the motherland is strong, their joy in our mighty successes in all theatres of war affecting."

SIOUX CITY CLUB LEADS.

Chicago, June 16.—Latest returns tonight from the seventh annual competition against par for the Tom Morris trophy showed the Sioux City boat club of Sioux City, Iowa, leading with a score of 19 down to par.

AGREE TO ARBITRATE
CHICAGO CAR STRIKERESUME NORMAL SERVICE ON ELE-
VATED AND SURFACE LINESFirst Surface Cars Attract Great
Crowds and are Greeted Enthusi-
astically—Thompson is Credited
With Bringing About Agreement.

Chicago, June 16.—Normal service on the Chicago elevated and surface car lines was resumed today as the result of an agreement reached after an all night session of railway and labor representatives and a council committee headed by Mayor Thompson had agreed on arbitration. The home bound thousands were transported from the business district as was usual before the strike. The elevated lines ran cars soon after the announcement that there had been an agreement to arbitrate but it was several hours before anything like a normal schedule was in operation. On the surface lines the first cars to appear downtown reached the loop about 11 o'clock. They attracted great crowds and were greeted enthusiastically. Thereafter there was a gradual increase in the number but it was not until the rush hour of the evening that the surface lines were in full operation.

Sign Agreement at Noon.

The formal agreement between the companies and the unions to arbitrate all differences was not signed until noon, although the order had gone out to the 14,000 employees to return to work several hours before. Mayor Thompson is credited with bringing about the agreement to arbitrate and he was chosen by both sides as the third or neutral arbitrator. The companies representing the men and the companies will be chosen by the respective interests before Saturday, on which day the first meeting of the three arbitrators is to be held.

In working out the arbitration agreement it was agreed that as wages there would be no arbitration downward and that "trippers," men who work only during the rush hour. Every point of difference between the men and the employers is to be decided by the arbitrators.

CHARACTERIZES REPORTS AS
PREPOSTEROUS AND UNTRUEDr. Hansen Sends Telegram to Lansing
Informing Him of Content of
Statements that German Embassy
is in Reality Dr. Meyer.

New York, June 16.—Dr. Daniel von Haim Hansen, counselor at the German embassy, now in summer quarters at Cedarhurst, L. I., declared tonight that he had sent a telegram to Robert Lansing, acting secretary of state at Washington characterizing as "preposterous and untrue" published statements that Dr. Anton Meyer-Gerhard, chief of the supply department of the German army who had been secretly here buying war munitions. This government arranged safe conduct with the allies for Dr. Meyer-Gerhard that he might return to Germany with a personal message from Count von Bernstorff, the German ambassador.

Dr. Hansen said that he acted in the absence of Count von Bernstorff, who was on a motor trip in the Catskills and whose return was delayed by the rain storm. He wanted it distinctly understood that he was not speaking for the count.

"I sent the telegram to Mr. Lansing," he said, "because I consider the published stories an attack on the honor and veracity of the ambassador as the representatives of the Germans in this country. I told him there was not a word of truth in the stories and that they were preposterous lies."

Secretary Receives Word.

Washington, June 16.—Secretary Lansing received word late today from sources which he regarded as reliable that the man who sailed for Germany with a safe conduct, carrying messages to the foreign office at Berlin from Count von Bernstorff, the German ambassador was Dr. Anton Meyer-Gerhard.

Doubt has been cast on the identity of the German ambassador's envoy but published reports that the same conduct in Dr. Gerard's name was readily obtained for Dr. Meyer, chief of the supply department who is said to have been buying supplies in the United States. Another story was to the effect that Dr. Meyer accompanied Gerard.

ZEPPELIN RAID IN ENGLAND

RESULTS IN SIXTEEN DEATHS

LONDON, June 16.—The following official statement regarding the Zeppelin air raid was issued tonight: "Further inquiries show that the casualties in connection with the visit of a Zeppelin to the northeast coast Tuesday night amount to sixteen killed and forty injured."

"It is now possible to state more exactly the casualties resulting from an airship raid on another portion of the northeast coast on the night of June 6th. The number of deaths there was twenty-four, comprising five men, all civilians, thirteen women and six children. There were also forty cases of more or less serious injuries."

"The principal fires were in drapery establishments, a lumber yard and a terrace of small houses."

FIGHTING HEAVY

Teutonic Allies Swing Forward
In Galicia—Russ Unable to Initiate
Stiffer Resistance

CAUSES LITTLE EXCITEMENT

LONDON, June 16.—For the first time in weeks there has been heavy fighting over a comparatively extensive line of the British front in Belgium and France. The Berlin official communication makes note of it and describes it as an Anglo-French movement synchronizing with the Russian reverses in Galicia.

To win a mile of front and then to lose it before terrific German counter-attacks was the experience of the British on Tuesday near Festubert. In a statement, Frank Field, Field Marshal French records this incident, but does not state the losses, which must have been heavy on both sides.

Germans Concede Loss of Ground.

The Germans are as frank in conceding the loss of ground near Ypres, but they make no mention of having been forced, even temporarily, to yield a mile of their Festubert stronghold. In the east the Austro-German advance continues to swing forward, with the exception of the section between the Dniester marshes and Zurenna where the Russians holding the bridge heads are making some headway.

General von Mackensen, according to dispatches, has given himself a fortnight in which to capture Lemberg and it would seem that at the rate his co-ordinate forces are going forward, this time will be ample, for the Russians are unable to initiate a stiffer resistance than they are showing now.

Raid Causes Little Excitement.

Latest Zeppelin raid on England has created hardly a ripple of excitement. Aircraft protection was one of the subjects discussed today in the house of commons. William Joynton-Hicks urging a marked increase in this branch. He said that London might soon expect a serious raid and added that at one time more than five Zeppelins of the latest type were over the English coast.

Under-Secretary for War, H. J. Tennant, besides giving assurances that bigger aeroplanes were under construction said that since the beginning of the war the number of machines had been increased ten fold and the number of men engaged in this branch five fold.

FIND TWO DEFENDANTS IN
POLICE GRAFT TRIAL GUILTYDetective Sergeant Is Given Three
Years in Penitentiary—Captain
Storen Is Fined \$1,000.

Chicago, June 16.—Captain James O'Dea Storen and Detective Sergeant Michael Weisbaum, two of the defendants in the so-called police graft trial, were convicted of conspiracy tonight by a jury in Judge Deyer's branch of the criminal court. Frederick Roth, former detective sergeant, who was the traveling partner of Weisbaum, was acquitted.

The jury fixed Weisbaum's punishment at three years imprisonment in the penitentiary. Storen was fined \$1,000.

Attorneys for the police officials entered motions for new trials. Storen and Weisbaum heard the reading of the verdicts without visible emotion and refused to comment on the finding.

The case has attracted more than ordinary attention because of the prominence of the captain and because it was the first of a number of similar cases involving police officials. Among those remaining to be tried on charges of collusion with criminals are Captain John J. Halpin, former chief of detectives, and Lieut. John H. Tobin of the central detail.

CAPTURE SWEDISH STEAMER.

London, June 17.—A Reuter despatch from Gothenberg says that the Swedish steamer Torsten of 1,675 tons from Gothenberg to England was captured Wednesday morning by a German auxiliary cruiser off the island of Vinga. The vessel was towed southward presumably to Swinemunde. The steamer is said to have no contraband aboard.

Florence, Italy, June 17, via Paris.—William Marconi has asked that he be enrolled as a lieutenant of engineers and assigned to duty with the telegraph brigade here.

War News Summarized

At two points on their line—north of Hoge, which lies east of Ypres in Belgium, and at Festubert in France, the British troops have suddenly resumed an active offensive. A line of German trenches at Festubert was occupied but soon lost, through the violence of the German counter-attack. But in the engagement in Belgium, the British were successful in capturing more than half a mile of trenches, including the whole of the first line and parts of the second line and these they are holding.

The German war office admits the capture of positions by the British near Ypres, but asserts that in the fighting around Festubert the British sustained heavy losses in men and left several machine guns and bomb throwers behind after their assaults, in which hand-to-hand fighting occurred, were repelled.

The French are gaining ground in the region of Arras and in the Vosges on both banks of the Ficht river where several hundred prisoners together with a large quantity of rifles and cartridges were taken.

Rheims has again been heavily bombarded and the French report that about a dozen shells fell on the famous cathedral. German aeroplanes have dropped bombs on Nancy, St. Die and Belfort.

The capture of 122,300 Russians and a great number of guns from June 1 to June 15th, is reported by the Austrian war office, while Berlin's report gives the German general von Mackensen credit for the capture of 40,000 since June 12th. Whether the latter are included in the Austrian official estimate is not made clear.

Military observers at Petrograd express the belief that 2,800,000 Germans and Austrians are operating against the Russians in the east. No one so far has attempted to say with any exactitude how many Russians are under arms to oppose this immense force but early in the war Russia's potential powers for recruiting were placed high up in the million.

Battles of a rather minor character but with strategic points as their objective, are being carried on by the Italians against the Austrians along the Austro-Italian frontier. The Italians have now come up to the previously prepared and powerful defenses of the Austrians on the Isone river and with the superlative artillery which Italy possesses heavy fighting may be looked for in the near future.

The Zeppelin raid on the coast of England has resulted in the killing of sixteen persons and the injuring of forty. The number of deaths resulting from a German airship raid on the northeast coast on the night of June 6th, was twenty four.

ASSERTS ONE OF GUNMEN WENT
TO HIS DEATH AN INNOCENT MANRabbi Goldstein, a Chaplain to Sing
Sing, Would Not Name Man, But
He Is Believed to Be "Dago"
Frank.

Albany, N. Y., June 16.—Rabbi Jacob Goldstein, a chaplain to Sing Sing prison and the Tombs, New York City, asserted before the bill of rights committee of the constitutional convention today that one of the four New York gunmen executed for the murder of Herman Rosenthal went to his death an innocent man and that the district attorney's office has admitted as much in a communication to Governor Whitman.

Mr. Goldstein would not name the man but he is believed to have referred to "Dago Frank" Cirofici. The Rabbi was among a number of speakers who appeared before the committee to urge a constitutional amendment abolishing the death penalty.

"From my own experience," he said, "and from what I have learned, I know that scores of innocent men have died on the gallows and in the chair. I was present when a lad whom I practically knew to be innocent, went to his death."

Chairman Louis Marshall asked if he referred to one of the four gunmen.

"I do," replied Rabbi Goldstein, "and the innocence of this boy has been admitted in a communication sent from the district attorney's office to the governor. If this is denied by anyone I stand prepared to give chapter and verse."

CARRANZA OFFICIALS ADMIT

LOSS SALTILLO TO VILLA

LAREDO, Tex., June 16.—Carranza officials in Nuevo Laredo tonight admitted Saltillo had fallen into the hands of Villa troops under Generals San Roman and Raoul Madero. They persist however, in claims of victory over Villa at Icamole, where General Hildebrando Vasquez, former Carranza commander at Nuevo Laredo, received fatal wounds.

A letter received here today dated Monterey, June 14th, brings information that Monterey has been surrounded for three days.

The Monterey letter says the Carranza leaders had levied against Saltillo for 500,000 pesos, Carranza money and for 100,000 pesos gold against three local banks to pay troops.

GRIND OUT BILLS

PASS ANTI-TIPPING BILL

Tice Measure Enabling Counties
to Vote Bonds for Good
Roads Is Adopted

MANY BILLS DECLARED DEAD

SPRINGFIELD, Ill., June 16.—With only two more days of work before them, both houses of the legislature ground out bills at a rapid rate today. Speaker Shanahan announced that he hoped to be able to bring the session to a close before midnight Friday.

The liquor compensation bill which provided for the reimbursement of liquor dealers who are put out of business by anti-saloon votes, died today.

Pass Anti-tipping Bill.

Included in the list of bills passed today were the Merritt anti-tipping bill, the Tice bill enabling counties to vote bonds for the construction of good roads, the Lyle bill providing for the placing of the names of candidates for judicial offices upon a separate ballot, the Thon bill providing for the treatment of the babies born with sore eyes and the Tice bill amending the motor vehicle act, fixing license fees according to horse-power.

The house passed the Dailey bill amending the workmen's compensation act. The bill extends the operation of the act to include other employments, raises the minimum of compensation for death and of weekly indemnity, broadens the powers of arbitrators and permits circuit courts to review the findings of the arbitrators.

Action Bills Scores of Bills.

Scores of bills including the one to increase the railroad passenger fare rate from two to two and one-half cents a mile were declared officially dead tonight when the house stopped passing bills originating in that body and the senate took similar action.

Speaker Shanahan announced that the last house bill has been passed by the house. Hereafter until adjournment Friday night the house will spend its time in passing senate bills and the senate will pass house bills. The official adjournment resolution providing for adjournment on June 30th, was introduced in the senate tonight and will be adopted by both houses tomorrow.

Home Rule Bill Is Lost.

All chance for the passage at this legislative session of a Chicago home rule bill or the bills providing for the merging of the surface and elevated lines in Chicago were lost tonight when the house public utilities committee failed to act on the measure.

The house passed the Shurtleff bill increasing the salaries of downstate circuit court judges from \$5,000 to \$7,000 annually.

Representative Purdunn of Clark county made an unsuccessful effort to prevent action on the measure.

Representative McCormick tonight offered a resolution which authorized the speaker to name a committee of seven members to study the question of municipal regulation and control of public utilities with the power to employ counsel and take testimony. The resolution provides that the commission report to the next session of the legislature. Speaker Shanahan referred it to the appropriations committee.

Passes Bailey Bill.

The house passed the Bailey bill permitting newspapers and railroads to exchange mileage for advertising and allowing members of the legislature to accept free railroad passes. The senate adopted the Compensated resolution recommending the development by the rivers and lakes commission of the Rivers a la Mine, a stream in the northwestern corner of McDonough county.

By a vote of 51 to 20 the house refused to suspend its rules for the immediate consideration of the Hull bill, permitting the Chicago park boards to make an agreement with the city relative to submerged lands, so as to reserve the possibilities for the construction later of an outer harbor, such action being necessary under a ruling of the secretary of war. The measure is now considered dead.

House and Senate Adjourn.

At 12:35 this morning (Thursday) the house adjourned until 9 o'clock. Before adjourning it adopted a motion to table 167 house bills remaining on the calendar and the scores of bills remaining in committees. The senate adjourned a few minutes later after spending the night in advancing bills.

CARRANZA DECLINES
OVERTURES FOR PEACETHREE OFFERS OF VILLA-ZAPATA FAC-
TION ARE LEFT UNANSWEREDGonzalez Replies to Overtures for an
Armistice With a Demand for the
Unconditional Surrender of Mexico
City.

Washington, June 16.—General Carranza has declined, for the present, at least, to accept overtures for peace in Mexico by the Villa-Zapata faction. Three such offers have gone unanswered.

The latest it became known today was transmitted through the medium of the United States without comment.

A few days ago the convention assembled in Mexico City, over which Francisco Lagos Chazaro presided, formally presented to the Brazilian minister, as the representation of the American government for transmission to General Carranza through diplomatic channels a proposal for a thirty day armistice, during which arrangements could be made for establishing a provisional government.

It was suggested that both sides should maintain a military status quo and that the armistice be extended from time to time while the parleys continued. The plan included the holding a popular election to be supervised by the factions in control of various sections of the country. The proposal was communicated to General Carranza by American consul Silliman. On inquiry as to whether there would be any reply General Carranza is understood merely to have said there would be none.

Since last Monday Carranza has had a personal telegram from General Villa urging a conference of their representatives for a discussion of peace terms. It is known here too, that a delegation from the convention at Mexico met General Pablo Gonzalez, the Carranza commander near the capital, and asked for the arrangement of an armistice and that he demanded, in reply, the unconditional surrender of the city.

The Villa-Zapata followers claim these efforts demonstrate their willingness to heed the suggestion in President Wilson's recent statement that the factions in Mexico settle their differences.

EXPECT MORE THAN EIGHTY-TWO
MILLIONS FROM INCOME TAXEstimates of Returns are Revised
Upward by Treasury Department
Officials.

Washington, June 16.—First estimates of returns from the personal and corporation income tax have been revised upward by treasury department officials who now anticipate more than \$82,000,000 during the present calendar year from this source. Estimates made in May promised a return of \$80,025,000. It was said tonight, however, that it was quite probable that when the books were finally closed it would be found that the actual receipts are nearer \$83,000,000 which would put the returns \$3,000,000 above the amount figured upon nearly nine months ago when the treasury's annual income estimates were made.

Under the law payments of income tax may be made as late as July 10th, but from the way in which the tax is pouring in, officials are confident that a large proportion of the total will be in the vaults before the close of the present fiscal year, June 30th.

It is now apparent officials said today, that there will be sufficient money from this source to wipe out a large part of the deficit which appeared early in the year and which steadily increased until a short time ago. This fact is counted upon to silence for the present talk of an issue of Panama canal bonds to replenish the treasury's working balance.

BRITISH STEAMER IS SUNK;
TWENTY-TWO OF CREW DROWNCaptain of the Strathnairn Is Among
Those to Lose Lives—Torpedo
Causes Boiler to Blow Up.

London, June 16.—The British steamer Strathnairn was torpedoed today off the Scilly Islands and sank. Twenty-two members of the crew, including the captain were drowned. The crew was composed of nine Englishmen and twenty-four Chinese and ten of the Chinese were saved. These were landed at Milfordhaven. The torpedo struck the steamer amidships and blew up one of her boilers. Four of the ship's boats were hastily launched but two of them capsized, while another was smashed against the steamer's side. The other boat with the eleven survivors in it was picked up later and the men taken to Milfordhaven.

The survivors say that after the Strathnairn was torpedoed the periscope of a submarine was seen, near by but that the underwater boat made no attempt to rescue the drowning men.

The Strathnairn, which was a vessel of 4,336 tons was bound from Cardiff for Archangel, Russia, with a cargo of coal.

HOWARD CLOSING ARGUMENT

ATLANTA, Ga., June 16.—Leo M. Frank's final appeal for commutation of his death sentence to life imprisonment was completed here today and his fate was placed in the hands of Governor Slaton who took the petition under advisement with the announcement that he would make his decision as early as possible. It is not expected before Friday or Saturday at the earliest.

Tuesday Set for Execution.
Next Tuesday, June 22nd, is the date set for Frank's execution for the murder of Mary Phagan.

The conclusion of the proceedings today before Governor Slaton exhausted the last resource which Frank may employ to escape the gallows. The decision—for or against commutation, will bring to an end a remarkable series of legal contests in state and federal courts to clear Frank's name and proceedings for clemency before the state prison commission and Governor Slaton. The session today was occupied by William M. Howard, in his closing argument in Frank's behalf. Howard was interrupted frequently by questions from the governor on points of evidence and by Solicitor Dorsey, who took issue with statements as to what had been brought out in the trial.

Howard Attacks Testimony.

Mr. Howard attacked the testimony of state witnesses and sought to convince the governor of alleged inconsistencies and contradictions in the testimony and affidavits of Jim Conley, a negro, who served a prison term as accessory after the murder.

He asserted repeatedly that Conley's story was an invention of his own mind, designed to divert suspicion from himself.

"Take the name of Leo Frank out of this case," declared Howard, "forget all that has passed in the last two years, give me a public mind that is a clean slate and put this case in any county in Georgia and I will acquit this defendant in thirty minutes."

Points to Record of Case.

Howard declared that by the testimony of the state's witnesses, the record showed, Mary Phagan was not in the pencil factory at the time the prosecution contended Frank killed her. He also declared the record showed that the girl had not arrived at Frank's office at the time Conley in his testimony had said he already had disposed of the body. The attorney presented to the governor a weekly financial sheet of the factory which he declared Frank had made up the day the girl was murdered.

"We contend," he said, "that a person could not have made out this complicated statement after he had committed such a foul deed."

Solicitor Dorsey asserted that the state contends the financial statement had been compiled prior to the crime.

"That however, the state never proved," replied Howard.

Let us hope that Dr. Anton Meyer-Gernat's accredited interview is correct and that he has prophesied the questions at issue between the United States and Germany and will be quickly and amicably settled as soon as Germany gets a thorough understanding of the U. S. viewpoint. Certainly Dr. Gernat should speak as "one having authority" for he is the official representative of Count Bernstorff, the German ambassador.

Though aided by receipts from income and stamp taxes, the balance in the Federal Treasury at the close of business for the week ending June 9, was only \$16,557,499.70 compared with a balance of \$136,861,995.94 on the same date two years ago, when Republican revenue laws and Republican appropriations were in control of Federal finances. The excess of all expenditures over receipts for the fiscal year up to June 5 was nearly \$130,000,000, the exact amount of the Democratic deficit being \$129,733,334.11.

The continued rains are somewhat discouraging to farmers and there are complaints now because many corn fields are too wet for cultivating. In others the rains have drowned out the corn and there has been no chance for replanting. If there is no chance to plant corn farmers should remember that soy beans, cow peas and crops of that class can be planted for weeks yet and will prove profitable in addition to increasing soil fertility.

The Illinois general assembly ground out bills at a rapid rate yesterday and the same speed will probably be maintained for the two remaining days of the session. All hope Chicago men had of amending the State Utility commission act died Wednesday when the house public utilities committee failed to act on the proposed measure. Indications are that the assembly has gone on record as favoring the good roads movement as exemplified in the passage of the Tice good roads law two years ago. Mr. Tice's bill enabling counties to issue bonds for road improvement was passed Wednesday. This will make it possible for any county to proceed rapidly in road improvement if the residents prefer this plan to that of adding some mileage each year.

Bryan's Peace Statement.
Former Secretary Bryan's first installment of three papers dealing with "War as international nuisance" was issued Wednesday and is much in the form of an essay on the general horrors of war and the futility of warlike struggle. Possibly the most forceful fact emphasized is that international laws should be amended so that they are in the interest of neutrals rather than belligerents. At this time the state has no special bearing on peace but may be worthy of consideration when the war days are over. Possibly Mr. Bryan's third statement will be of more present day interest for he promises to have something to say then of vital importance.

"This is no time to talk politics" about Democratic leaders who desire to use the foreign situation to evade discussion of bad legislation and worse administration. Then these same leaders proceed to send a circular letter to local party managers asking for a report on public sentiment toward President Wilson and his policies. Possibly some few Republicans will be deluded into the notion that this administration is above taking partisan advantage of every incident and situation, but the number of those thus deceived will be small. This is undoubtedly the psychological moment to sound public opinion of the Wilson administration for sympathy has overshadowed judgment and tempered criticism. And Democratic leaders are crafty enough to turn it to partisan advantage.

No Premature Celebrating.
As noted in the Journal yesterday, Chief of Police Davis has called attention to the city ordinance relative to the premature celebration of the 4th of July by the firing of guns or the shooting of fire crackers. As the 4th of July comes on Sunday this year there will probably be more of a disposition than ever to disregard the law, but it is the hope of the police department that arrests will not be necessary in order to emphasize the intent to have the peace and safety of the public preserved by the observance of the statute. It usually happens that when the 4th of July falls on Sunday that there is a temptation to celebrate July 3, 4 and 5, and the order of the police department purposes to emphasize that one day only should be celebrated and also that there should be no discharge of firearms on the streets on the days preceding the 3rd.

A Victory for Thompson.
That Mayor Thompson was able to hold traction and labor officials

in an all night session and until they came to an agreement to arbitrate their differences is highly creditable to the mayor. According to the story from the conference room Mayor Thompson's athletic training came into good service when by force he compelled one of the traction officials to remain in the conference. A man not of the hale fellow well met type that Thompson is, a man not well supplied with tact could hardly have used such methods with success.

Altogether the agreement came as a great relief to Chicago, for the tie-up, if that conference had been broken or resulted in nothing, might have been of long duration with blood shed, inconvenience and enormous money loss. The agreement was the reasonable thing to do but at such times men do not always do the reasonable thing and it is indeed fortunate that the leaders on both sides were willing to take the good advice given them by Chicago's chief executive.

Some Famous Letters.
Among the many interesting letters regarding the American war of independence which are to be sold today at auction at the Fernald residence of Lord Sydney in London are two that show the views of Pitt and King George III. King George wrote: "You may send the messenger to Paris with the draft of the preliminary articles and the dispatches as they are ready, without waiting for my seeing the letter. He cannot be surprised at my not being overanxious for the perusal of them, as parliament having at my astonishment come into the idea of granting separation to North America, has disabled me from longer defending the just rights of this kingdom. But I certainly disclaim thinking myself answerable for any evils that may arise from the adoption of this measure, as necessity, not conviction, has made me subscribe to it."

In an undated letter, William Pitt, Earl of Chatham wrote: "Finding that the doom against America is to be pronounced from the treasury bench perhaps in a few hours, it will be too late to attempt preventing a civil war. After it is once inevitably fixed, this unhappy exigency leaving no option. I must speak or forever hold my tongue. I mean then to offer my thoughts to the house tomorrow if gout, which is about me, permits me to come to town. I would most willingly have postponed this step for more consultation, feeling the too great weight of this arduous matter; but, though I see my danger, I also see my duty. The peril of my discretion is of less moment, as I am so near the end of my political career. Should my duty in that flattering circumstance of your applause, I shall be truly happy in that flattering circumstance being ever with unfeigned esteem and affection, my dear sir, Most faithfully yours, Chatham."

Women in The News

St. Louis, Mo.—Midnight marketing is society's most profitable diversion in St. Louis, fashions of gowned women and men in evening dress driving their motor cars to the midnight market on their way home from theatres and dances, and selecting their fruit and vegetables for the following day. The idea is spreading and other cities may take it up soon.

San Diego, Calif.—Field Marshal Von Hindenburg, the great German fighter, is the granduncle of a baby girl born here a few weeks ago. The new arrival is the daughter of Baroness Eckhard von Scheck, wife of the vice-consul for Germany in San Francisco. The mother is a member of the family of German soldiers.

Pittsburg, Pa.—A hearing will be given in Harrisburg today by the State Pardon Board on the petition for pardon asked by Helen Boyle, now serving a 25 year term in the penitentiary here in connection with the kidnapping of Billy Whitla of Sharon, Pa., in 1909. Whether the father of the kidnapped boy will re-enter is not known. The boy will enter high school next year and his playmates have almost forgotten the thrilling incident. Mrs. Boyle is known as the "prison angel" and she promises to help toward the betterment of other girls if she is released.

Palmyra, Wis.—Miss Lura Dow, editor of the Palmyra Enterprise, has been elected secretary of the Wisconsin Press Association. She is the first woman to hold the position.

Jennings, Okla.—The example of Dick Coker in marrying an Indian girl has brought a demand for Indian brides. Many offers of marriage are coming to Katie Fixito, an 18-year-old Creek Indian girl, who owns forty acres of valuable oil field near this city. The land is estimated to be worth half a million.

Washington—A movement is under way by the women of Washington, under the inspiration of Mrs. Edwin Clark Gregory to save the home of John Paul Jones at Halifax, N. C., from threatened decay. Mrs. Gregory is the eldest daughter of Senator Lee Overman. According to her statement launching the movement, the splendid old home where Jones spent his happy days the only home he ever knew or loved, is crumbling to decay. It is proposed to preserve it and care for it as the ladies of America care for Washington's home at Mount Vernon.

Atlanta, Ga.—Miss Alexia Stirling who won the Southern Women's Gold Championship at Birmingham recently, is only 17 years old. She is the daughter of Dr. Alex W. Stirling of this city. Her friends are hoping she will meet some of the other women champions this summer.

her husband, the beautiful Mrs. T. B. McClintic, who before her marriage three years ago was prominent in Washington social circles, has returned to the United States. She is accompanied by her small daughter, Leonassa. She is the daughter of the late Charles F. Drexler of Washington. Early in 1912 she married Dr. Thomas B. McClintic of the U. S. health service, one of the foremost experts in the treatment of fever in this country. Her married life was brief, for two months after Montana to combat an epidemic of the wedding, the doctor went to spotted fever and himself fell a victim to the malady and died. A year later Mrs. McClintic told her friends she would seek to forget in another country and left for the Philippines.

Chicago—The Woman's Temple, erected as a memorial to Frances Willard, the temperance leader has been sold under foreclosure to the Field Museum of Natural History, which held a mortgage on the building. Financial difficulties caused the sale of the building. A committee headed by Mrs. Matilda B. Carse worked hard to save the building from foreclosure, but her efforts failed by a narrow margin. The building was designed to represent womanhood. It is all curves, softness and beautiful lines, and is the most unique office building in the world.

Atlantic City, N. J.—At the recent meeting of the State Federation of Women's Clubs, Mrs. Amelia Du Bois of Bayonne told of her interesting experiment in cutting the cost of living. She bought two bushels of whole wheat and a hand mill, and made her own breakfast food and flour. This resulted, she claimed in a saving of fifty percent, and she had fresh and wholesome flour and therefore better bread than she could buy.

Cincinnati, O.—The municipal health department's Better Babies show is being held today and tomorrow at Chester Park. A committee of prominent Cincinnati women are assisting in selecting the prize babies, and talks are being given to the mothers. Public school employees will give an outing on Friday and Saturday to 40,000 public school children.

MORTUARY

Wait.
The death of Edgar G. Wait of which mention was made yesterday, took place at the family residence, 120 Grove street, at 12:15 o'clock Wednesday morning and was a sad ending of beautiful and promising young life. From the beginning his disease was baffling to the best medical skill that could be secured and death came to remove a young man whose life gave promise of great usefulness to others and happiness to himself and family.

The young man was born in LaPlata, Mo., May 10, 1897 and was the son of William O. and Tabble G. Wait. At the age of three years he was brought by his parents to this city which has since been his home. He was always a favorite in school, on the playground and among all who knew him and his father's family. He was a member of the graduating class of the Jacksonville high school and so much was he esteemed by his teachers and fellow pupils his name was continued on the class roll in the vain hope that he would recover and finish with the others and even in the graduating list his name was included and was printed on the commencement program.

His moral and class standing was high and on the athletic field he was a fine sample of the vigorous, active young man, always clean and upright in his conduct so that he was ever a prime favorite with all whom he met in various capacities. The deceased was a member of Central Christian church and was faithful to his obligations both in church and Sunday school and in the various church activities into which duty called him. He was of a cheerful, sunny disposition and was glad to help others, less fortunate than himself. In the home he was always obedient to his parents and dutiful in all things while ready to do anything that might aid his parents and brother in any way. He was a welcome guest at the homes of the neighbors and all who knew him and in many circles he will be sadly missed. He is survived by his parents and one brother, Robert, at home.

The funeral will be conducted at the family residence, 120 Westminister street at 2:30 p. m. today by Rev. Myron L. Pontius and interment will be in Diamond Grove cemetery.

Vasconcellos.
Mrs. Elizabeth Vasconcellos, wife of Dr. Earl Vasconcellos, died Wednesday afternoon at one o'clock at Passavant hospital after an illness of only a few days. Death was attributed to peritonitis.

Mrs. Vasconcellos was a daughter of John D. and Josephine Goveia and was born in this city May 29, 1887. She was married to J. Earl Vasconcellos in November, 1910 and besides her husband is survived by two children, one daughter, Beyril, 3 years of age, and a son, John Earl, 1 year old. The deceased is also survived by her parents who reside five miles southwest of the city; six sisters, Mrs. Alfred Souza, Jr. of this city, and Mrs. Moses Perry of this city; Mrs. C. R. Painter of Chicago, and Miss Bessie Goveia at home, and four brothers, Charles of Beardstown, Paul, Theodore and Irvin at home.

Mrs. Vasconcellos was a member of Northminster church and was devoted to her home and family. Her passing will sadden a wide circle of friends.

The remains were taken to the Gillham undertaking establishment and will be removed to the residence at 718 North Main street today.

Arrangements for the funeral have not been completed.

FRANK U. CORREA WILL BE EAGLES STATE PRESIDENT

Jacksonville Man Has No Opposition for Office He is Seeking—Rotation of Officers is Agreed Upon—Funeral and Sick Benefits to be More Carefully Handled.

Frank U. Correa was nominated for State worthy President of the State aerie of Eagles at Springfield yesterday afternoon.

Mr. Correa had no opposition for the nomination and will be elected today.

L. D. Wells, the retiring State worthy President had announced that he would be a candidate for re-election.

However, his friends and especially the delegates from Peoria, were able to get him to withdraw from the race.

It was practically the unanimous sense of all the delegates that no one should run for the same office the second time.

That the office should go in the natural order of progression. In other words that the only contest should be for the office of outer guard and then if the officer elected fulfilled the duties of his office that he would eventually be advanced to the office of State worthy President.

Frank E. Herring, past grand worthy president was in attendance at the convention and gave several interesting talks.

At the session Wednesday morning, he presented a recommendation from Conrad H. Mann, Grand Worthy President relative to sick and funeral benefits.

The report has been compiled from the records of the order for the past sixteen years and demonstrates that most subordinate aeries are paying too much for sick and funeral benefits for the amount of dues collected.

The state aerie instructed its delegates to the Grand Aerie meeting of the United States to co-operate with other states in the formulation of some plan to remedy this defect and enable all aeries to lay aside a reserve fund.

A resolution also was adopted commending President Wilson's attitude in the present crisis between this country and Germany.

The local aerie was given a check on Wednesday morning for \$25.00 for having a band in the big parade Tuesday evening.

The convention will close its sessions this afternoon.

FUNERALS

Braswell. The funeral of William Peyton Braswell, was held from the residence of his son, Emmett Braswell, in Franklin Wednesday in charge of Mrs. J. W. Kittle. Music was furnished by Misses Grace and Hallie Armstrong, Chattie Duncan, Mrs. Albert Alderson, Mrs. B. O. Rees and Mrs. W. C. Hart. Miss Armstrong presided at the organ.

Burial was made in the Franklin cemetery and the bearers were Claude Jolly, George Wyatt, Andrew Beierup, John Whitlock, William Hart and Newton Woods.

Rent Houses Wanted

There has never been a time when desirable rent houses, \$7.50 to \$25, were scarcer at Johnston Agency than they are today. Our facilities for securing the right renter for the right house are good. Being the only agency in the city making a specialty of this business, a constant stream of applicants pours through our office. We know what is due to tenants in the way of repairs, and our tenants stay. On the other hand, we collect all rents in advance, and we do not, upon the average, lose a full month's rent upon one house a year.

Landlords—We think you will find it profitable, and save yourselves a great amount of trouble, if you will let us attend to your rentals. We have made a science of it. And we respectfully solicit your business.

COACH W. T. HARMON WANTED BY JAMES MILLIKIN UNIVERSITY

Announcement Made That Only Terms of Agreement Necessary to Land Popular Coach.

According to a report from Bloomington Tuesday night, Coach W. T. Harmon may be named to fill the position of athletic director of Millikin university, a position made vacant by the resignation of Neil Price. The report states that Harmon has been offered the place, but there is some difficulty over terms, it is claimed.

Coach Harmon, through the splendid showing his athletes have been making is widely known and this is not the first offer that has come to him. At a recent meeting of the student association of Illinois college, \$200 was added to his salary, in order to keep him.

PROFESSOR ZORN ATTACKS THE ADMINISTRATION OF WILSON

Declares Wilson Government is Neutral Only in Form.

Amsterdam, via London, June 27.—Professor Phillip Zorn of the chair of law at Bonn University, and who was a member of both The Hague conventions, attacks the administration of President Wilson in a copy of an article in the Cologne Gazette, a copy of which has been received here.

"We have a clear conscience as far as international law is concerned," says Prof. Zorn. "But has the Wilson government an equally good conscience? I answer, no. The feelings of the German people are bitter, not against the American people whom we consider our good friends, but against the Wilson government, which is neutral only in form."

"Hourly our army, our people and the Kaiser are insulted in the meanest, most lying fashion by the American press. Is that honorable neutrality? The war would have been over except for American supplies. We accuse President Wilson before God and the world of guilt for the continuance of this fearful murder. That is the neutrality and Christianity of President Wilson and his government."

SCHMIDT AND CAPLAN ASK THAT INDICTMENTS BE DISMISSED

Allege Some of Grand Jurors. Who Accused Them Were Selected or Suggested by Zeelandelaar.

Los Angeles, June 16.—Milton A. Schmidt and David Caplan, alleged accomplices of James McNamara in the Los Angeles Times dynamiting case entered a motion in the superior court here today asking that indictments for murder filed against them be dismissed on the ground that some grand jurors who accused them had been selected or suggested by F. J. Zeelandelaar, secretary of the Merchants and Manufacturers association. Attorneys for Schmidt filed with the motion a letter alleged to have been written to Zeelandelaar by Earl Rogers, a lawyer then interested in the prosecution of the McNamaras and their confederates. This letter contained data concerning the supposed attitude of several prospective members of the grand jury with regard to labor unions. Three of the men named in it finally served on the grand jury which indicted Schmidt and Caplan.

On the day the Times building was blown up killing twenty men a bomb was found planted at Zeelandelaar's residence.

TO MAKE NO CHANGE IN MINISTRY PENDING MEETING OF DEPUTIES

LONDON, June 16.—"Although the victory of the party of former Premier Venizelos is now an established fact," says Reuter's Athens correspondent, "it has been reiterated that there will be no change in the present ministry pending the meeting of the chamber of deputies July 25th, unless meanwhile a regency should be formed owing to the king's illness."

"The condition of King Constantine is somewhat improved but Prince George, his brother, who has arrived in Athens, has been forbidden to enter the sick chamber. Premier Gounaris also has been unable to see the king."

REPORTS TWO HUNDRED WERE KILLED IN RAID ON KARLSRUHE

LONDON, June 17.—A Rotterdam despatch to the Exchange Telegraph company reports that the damage done at Karlsruhe by the air raid of the French squadron of aeroplanes was much greater than the papers were allowed to state.

"Two hundred persons were killed," says the correspondent. "Fifty bombs were dropped, one of them almost destroying one of the Ducal Palaces used as headquarters by the Karlsruhe commandant. Others destroyed a number of factories engaged in manufacturing shells. A great panic was caused and the victims will be buried secretly at night."

"The people are ignorant of the utter failure of the anti-aircraft measures and they complain that no signals of approaching French aviators were given."

PROTESTS AGAINST ARREST

London, June 17.—The American consul at Trieste has protested strongly at Vienna, according to a Geneva despatch to the Daily Express against the arrest of his guest, the Italian vice-consul, Signor Canova, in the American consulate. The Italian vice-consul has been interned despite assurances given to the American consul by the governor of Trieste that his liberty would be respected.

JAMES M. CULLY DIED THIS MORNING

WELL KNOWN CITIZEN PASSED AWAY AFTER LONG ILLNESS.

Death Came at 1:30 at Passavant Hospital Where He Had Been for Past Five Weeks—Was 73 Years of Age.

James M. Cully of Sandusky street, one of the highly respected citizens of Jacksonville died this (Thursday) morning at 1:30 o'clock at Passavant hospital, where he had been a patient for the past five weeks. Mr. Cully had not been in good health for a long time.

He was 73 years of age and married the oldest daughter of Septimus Stevenson. She survives him and two brothers, Oliver and Earl and one sister, Miss Lydia Cully, all of Jacksonville. Mr. Cully was a veteran of the civil war.

The remains were taken to Reynolds' undertaking parlors. A suitable obituary will appear in Friday morning's Journal.

VORWAERTS AGAIN ENDORSES ZIMMERMAN'S UTTERANCES

Especially Approves Point of View That There Are No Germans Who Want War With United States.

Berlin, via London, June 16.—The Vorwaerts today continues its campaign for reaching an understanding with the United States. It again endorses Eugen Zimmermann's utterances in the Lokal Anzeiger, especially approving Zimmermann's point of view that there are no Germans who want war with the United States and that this fact should be known abroad. The Vorwaerts sharply dissents from Count Von Reventlow's remark that if influences were at work in Germany to bring about a war with the United States it would be reprehensible to divulge this fact.

"On the contrary," says the Vorwaerts in reply to Count Von Reventlow, "in our opinion if such views prevail in Germany there is no more imperative task for the serious newspapers than to combat such influences with all emphasis." Professor Otto Hoetsch's article in the Kreuz Zeitung throughout is couched in a friendly tone toward the United States.

MAKES LETTER PUBLIC.

Washington, June 16.—So many inquiries have reached the interstate commerce commission over the checking of baggage since the Cummings' amendment to the interstate commerce act went into effect June 3rd, that the commission today made public several letters written recently dealing with the subject. Among other things the letters make clear that one declaration of value is sufficient for one person's baggage, no matter how many pieces and that each passenger is entitled to check without extra charge the maximum free allowance of baggage belonging to himself.

SUGGESTS ADVISABILITY OF MAINTAINING PEACE

Copenhagen, via London, June 17.—Albert Ballin director general of the Hamburg-American steamship company and a close personal friend of the German emperor has suggested to the emperor the advisability of maintaining peace with the United States.

COLORADO TO SAIL TODAY.

San Diego, Cal., June 16.—The flagship Colorado of the Pacific fleet announced to sail for Mexican waters today with three companies of marines, probably will sail for the south tomorrow. Final sailing orders are said not to have been received.

SMALL TO BE CHOSEN HEAD OF STATE BOARD OF AGRICULTURE

SPRINGFIELD, Ill., June 16.—It was made known from authoritative sources here today that Len Small of Kankakee will be elected president of the state board of agriculture at a called meeting of the board next Tuesday to succeed the late J. K. Hopkins of Princeton.

The election of Mr. Small will be the signal for a re-organization of the system of handling the finances of the state fair, it was stated today.

FULLAM EXPRESSES CONFIDENCE IN THE JUDGMENT OF BOARD

ANNAPOLIS, June 16.—Rear-Admiral William F. Fullam, superintendent of the naval academy, declared today that he had such confidence in the judgment of the three officers who composed the board of investigation which convicted seven midshipmen of guilty knowledge concerning a paper alleged to have been an actual examination paper stolen from the department of modern language, that he personally did not think any further inquiry was necessary.

This expression of opinion was made before the court of inquiry appointed by Secretary Daniels to make further investigation of irregularities in examination papers. The superintendent whose recommendations of dismissal of the midshipmen was based on the finding of the board he had appointed, made it plain, that he intended no criticism of the navy department. They had their own reasons for re-opening the matter, he said.

POINCARÉ ADDRESSES MUNITIONS WORKERS

Paris, June 17.—"A crowning victory will be the reward of moral force backed by material strength," was the essence of discourses by President Poincaré to the munitions workers at establishments in Tarbes, Toulouse, St. Chamond, Creusot and other places of which he has just made a tour.

The president everywhere insisted upon the great importance of attaching to the manufacture of guns and munitions on a larger and quicker scale.

Curing Catarrh is A Simple Method

Go to its Source and the Cure Is Then Accomplished.

Only those who have used S. S. S. for the blood know that catarrh is simply a blood trouble.

Most people, uninstructed in this membranous disease, treat their nose and throat as if catarrh was a local trouble. It is not so. For this catarrh is necessary to go into the stomach, the liver, the lungs, the kidneys and all the vital organs of the body. And it is S. S. S. that at once enters the entire blood circulation, all the organs of the body, all the mucous surfaces and becomes a dominant factor for renewed health. It is a simple method when you figure it out. Catarrh is plainly an inflammation of the mucous membranes.

And there is in S. S. S. certain ingredients which cause these mucous surfaces to change or convert their secretions into a substance for easy elimination. A special book on this subject will be mailed to all who write to The Swift Specific Co., 110 Swift Bldg., Atlanta, Ga.

Catarrh is very often the result of some other blood trouble, some germ that gets into the blood and multiplies beyond the control of nature.

S. S. S. is the remedy. Do not accept a substitute for this catarrh remedy. Read the circular wrapped around the bottle. It is important.

EUROPEAN WAR NOTES

Merlin, June 15.—Via London—Special despatches from the Austrian headquarters report that the Teutonic allies are pushing the Russians vigorously from the San river to the Bessarabia frontier. The latest operations are said to have resulted in bringing General Mackensen's forces in contact with General Linington and General Priizer. Heavy fighting is proceeding along the whole line in Galicia but the maximum apparently has not yet been reached. The Russians are bringing all their available forces, consisting partly of fresh recruits to resist the advance of the German allies.

London, June 16.—Sir John French commander in chief of the British forces in France, reports that the British troops captured and then lost a line of German trenches at Festubert but that the British have occupied the German position to the north of Hoge on a front of 1,900 yards. The reports say:

"Last week there was no change in the situation. The enemy exploded five mines on different parts of our front but none of these caused any damage to our trenches and only one caused any casualties."

"Yesterday evening we captured the German front line trenches east of Festubert on a mile front, but failed to hold them during the night against strong counter-attacks."

"Early this morning in the neighborhood of Ypres we successfully attacked the enemy's position north of Hoge to the east of Ypres. We occupied the whole of his first line of trenches on a front 1,900 yards and also parts of his second line."

"By noon today 157 prisoners had passed to our rear. The German counter-attack has been repulsed with heavy losses."

Berlin, June 16.—Via London—The German army headquarters today gave out the following statement:

"In the western theater: In consequence of the Russian defeat the English and French again attacked many points on the western front with strong forces. The English succeeded in forcing back to some extent our positions near Ypres, to the north of Bellewaarde, where the battle continues."

"Two attacks made by four English divisions between the Estaire-Labasse road the LaBasse canal failed, our west troops and divisions of the guard completely repulsed the assaults after desperate hand-to-hand fighting. The enemy sustained heavy losses and left several machine guns and bomb throwers in our hands."

"Since his defeat of June 12-13th, the enemy has made no further ventures against the strong positions near Loreto hill held by Baden troops. Near Moulip-Sous-Toutvent fighting continues."

"An attempt made by the enemy to break through our line in the Voges between the Fecht and the Lauch Valleys failed. Fighting there continues now only to the northwest of Metzler and Hilsenfirst. Otherwise all the attacks were repulsed."

"In the eastern theater: Russian attacks against the German positions southeast of Mariampol, east of Augustow and north of Bolimow, were all repulsed. Our attacks along the Lipowo-Kalwary front gained further ground, several positions being recaptured. We made 2,640 Russian prisoners and captured three machine guns."

"On the north of the upper Vistula our troops repulsed an attack on the positions we took from the Russians on Monday."

"The defeated Russian armies attempted on Tuesday along the whole front between the river San north of Sienawa and the Dniester marshes to bring the Teutonic allies to a standstill. In the evening the Russians everywhere had been driven from their positions near Gieniec, north of Sienawa in the Lubysow-Zuwodowa section southwest of Niemierow and west of Sadowa-Wiszenia. The enemy is being pursued."

"General Mackensen's army has captured upwards of 40,000 men and 69 machine guns since June 12th."

"Between the Dniester marshes and Zarnawa the Russians have gained some ground but the general situation there has not changed."

MILLIONS IN WAR ORDERS.

New York, June 16.—New war orders received in America add to the stupendous sums being spent for war munitions and supplies. Italy is spending seventeen millions with one concern alone, in Bridgeport, Conn. The plant makes projectiles and will be kept busy for over a year filling the order. The contracts now being worked in the Lehigh Valley reach the great total of \$200,000,000. Besides the Bethlehem steel works, other large concerns are working night and day turning out shells and shrapnel. The French government is asking for bids for seven million shells valued at \$8 each, and for about ten million dollars worth of shrapnel. In Hartford, Conn. work on seven million

OLD JACKSONVILLE

North Main Street

By Ensley Moore.

Member of Illinois State Historical Society.

Time was, before the War and in 1868, when North Main Street was about the whole thing in publicity. To be sure West State street was then, with the "six-acre aristocracy," but North Main had the only railway station or "depo" as it was then called. Trains wandered in and out of town on the Wabash, most any time that was convenient, and without too much regard for the time card. But the most active and exciting things were the buses, which were often driven fast, to and from the depot; and the din of the runners for "Ayers Hotel" and the "Mansion House" was something to think about.

The "Mansion House" now "Park Hotel" was one of the largest and finest hostleries in the state. It was almost as large as, and of the same architectural style as the first "Snerman House" in Chicago. Before being the "Mansion," it was the "Morgan House" and "Stage Office." So it was a very important place, as well as a creditable building to the town and to its day. There used to be a dry goods store, kept by Kibbe & Lathrop, on the first floor, at the corner. The long, narrow room next west, fronting on the Square was the office and waiting room, or "bar-room" as such places used to be called. There was no liquor selling in it, however, but the term had come down from the days when most, if not all "taverns" did sell wetness. Geo. W. Fox kept the "Mansion" in the fifties, and was succeeded by his son, Col. Chas. H. Fox. Further down (north) on the square Andrews lumber office of today, was the livery stable connected with the old hotel. Col. Fox used to keep it, too. Later "Dick" Maunz, whose name was George S., kept it.

Incidentally, "Ayers Hotel" was on North Sandy street just north of the first alley north of the Square. It was on the west side of the street and was kept by Daniel W. Ayers, father of Ben L. Theophilus, Preston and Chas. W. He was the grandfather of S. Wood Ferry, whose father, James M., married a Miss Ayers. Being a Jersey man, Mr. Ayers "set up" better cooking than was to be obtained at many hotels of the time.

A. L. Hocking began his public career in connection with a bus for one of these hotels, and he was an active "runner" for his employer. His afterwards kept the "Southern Hotel" on W. College avenue, and later had a house in Pittsfield. It was the burning of the barn at the "Southern" which caused the fire, which destroyed the handsome First Presbyterian church, about 1883, which stood where the Journal office now is. That is at the corner of W. State and West streets.

Capt. Samuel W. Hunt lived at the southwest corner of North and Main, in a story and a half white frame house, for many years before the Newman-Cherry livery stable was put up. The Morgan County jail was next south of Capt. Hunt's so Main could accommodate good and bad with lodging and board. There was also a good sized building at the southwest corner of Main and Lafayette avenue, which was sometimes store, and sometimes hotel. It fronted north to the Wabash depot. That ought to be referred to at first, as the station of the "Sangamon and Morgan," or the "Great Western."

The Rev. R. W. Allen, D. D., used to live, after 1856, two doors north of North street, on the west side of Main. He was pastor of the Second or "Old School" Presbyterian church for a number of years, coming here from Kentucky.

Gen. Murray McConnell was an improver of North Main street. He lived latterly in the large two story house with two wings, opposite the present Andrews lumber yard, just south of the end of Washington street.

Years ago, Fleming Stevenson said: (years before) "One day I went down on North Main street, where the John McConnell house is, to see 'the boys' playing ball. I lay upon the ground watching them, but something drew my attention to the fine lot. I concluded there was a speculation in it, so I bought it as soon as I could get hold of it." Mr. Stevenson had a good eye for good things, and knew a good bit of ground when he saw it.

Murray McConnell built the house afterwards occupied by his son, Capt. John L. McConnell, just south of the Snyder Ice plant now. Gen. McConnell also built the story and a half and basement house, up on a terrace where Robt. Hockenbuhl lived from about 1850 to the Fall of 1857. It was afterwards remodelled and enlarged by Elisha W. Brown and Chas. J. Dunlap lived there awhile, later on. This house was at the southeast corner of Main and Washington streets.

dollars worth of munitions is proceeding. The Colt, Remington, Winchester and Smith & Wesson plants are working overtime. The DuPont powder plants are being constantly extended, as are those of the Bethlehem steel company. Baltimore manufacturers are handling seven millions in contracts for projectile material. It is estimated that Canadian firms are working on war munitions valued at \$156,000,000. The Canadians are now turning out 20,000 shells a day and expect to reach 50,000 a day.

Murray McConnell gave the Catholic church the lot just north of John L's. house, this lot running through from Main to Sandy. On the Sandy street end the first Catholic church was built, and on the Main street end was a little, one story house occupied by the priest in charge of the church.

Mr. McConnell built his last residence where he met his tragic death, about 1852.

There were not many houses on the west side of Main, north of the railway, before the war. Two well known places, however, were the homes of Jacob Barton, just north of Walnut street, and that of Mother Asheber, the last home of Capt. Horace Chapin.

This house of Mr. Asheber's was the last one on the street, just on what used to be called "the yellow hill."

Coming back up the east side of Main street, before the war, the first place of interest was "Walcott's pasture," which used to be made attractive to the countryside for years because of the circuses which camped and showed there. It came up to the north side of the railroad.

At the northeast corner of Main and Washington, where Russell's brick office building was destroyed in the Andrews fire, was a little frame house, at one time occupied by the Richards' family. Miss Lou Richards married the well known railway conductor, Louis Barrett. They lived latterly in the "Burdett house," where the public library now is. The Barretts removed to southern California about twenty-five years ago.

A never to be forgotten place was the lumber yard and office of J. S. and G. S. Russell, just south of the railroad, on the railroad, and on the east side of Main street. It was the headquarters of a great and large continued business, and "Scott" Russell enlivened the place.

At first their quarters were in a frame building right up to the tracks. This had another historic interest, for there Mr. Joel Catlin, father of Capt. C. Augustus Catlin, had the first express office of which Jacksonville could boast.

South of the Hockenbuhl house, on the east side of Main, Mr. John W. Lathrop lived just before he went further west, and built his handsome brick residence on the south side of West State street, second door west of Diamond alley, where Mr. Edward C. Lambert now lives.

Joseph H. Bancroft, before moving to his last house on West State street, corner Diamond alley, lived in the second house south of North street, on the east side of Main. One day in 1853 Mrs. Bancroft gave a children's party for her son, John A., and a little boy from Perry, who was visiting his Hockenbuhl cousins, made his first appearance then in Jacksonville society.

Yes, the Dunlaps lived on North Main. Wm. Dunlap, known as "Uncle Billy," brother of the Colonel and Judge Stephen, and father of "Big Jim" and Wm. T. and of Mrs. Link, Mrs. Scott, and Mrs. Markoe, lived just north of the first alley north of the square, in a large frame house.

Speaking of the Dunlaps: Minerva has always seemed to be a dignified and attractive name for a woman. The Dunlaps had at least three women of that designation. There was Mrs. Wm. N. Ross, mother of Mrs. Wm. C. Dewey and Mrs. Bibb, afterwards Mrs. Edward Scott, and Mrs. John A. McClernand. The latter is still living, probably in Peoria. Mrs. Ross was of the first Dunlaps; Mrs. Scott was a daughter of William, above referred to, and Mrs. McClernand was the daughter of Col. James.

The latter was a magnate of the Great Western railroad, before the war. In those days a locomotive was light and a thing of beauty dressed off in brass and with pictures. These engines skimmed gently over the prairies, and did not go butting through hills and mountains, like the big black looking monsters of today.

The old engines were given names of people, places or things, not numbered as they are today. They often had pictures of scenery or people on the sides of the headlights. Among the latter was one decorated with the handsome face of Miss Minerva Dunlap (Mrs. McClernand).

The St. Louis, Jacksonville and Chicago, or Peoria and Petersburg road as it was first called, had a machine named the W. G. Greene. It no doubt ran very smoothly.

Coming back to North Main street, the Christian church edifice was at the northeast corner of Main and North streets. It was built about 1857, and was a brick building, the counter-part in appearance of the old "west charge" M. E. church.

A contemplation of all the points above given ought to show the early day importance of North Main street.

WILL HAVE PICNIC.

The Henotes Sunday school class of the First Baptist church expect to have a picnic supper this evening on the lawn at Nichols Park, providing weather conditions are favorable. The class consists of 25 young ladies and is presided over by Mrs. Percy W. Stephens, wife of the pastor. It is expected that among the guests from out of the city there will be present Mr. and Mrs. Badenoch of Chicago. The gentleman is a brother of Mrs. Stephens.

THE TEXTBOOK BUSINESS.

Greatly exaggerated ideas prevail concerning the total number of textbooks sold in the United States each year and the annual profits resulting from such sales. Confidential data obtained by the United States Bureau of Education from 43 textbook publishers in the United States show that their aggregate total sales of textbooks for use in public and private schools in 1913 amounted to \$17,274,930. The aggregate for public schools, elementary and high, amounted to \$14,261,768.

The total enrollment in public elementary and high schools for the year was approximately 18,600,040. Excluding the elementary school enrollment of California, since California prints its own elementary books, the number becomes 18,213,736. For each child enrolled in the public schools in the United States, therefore, the total annual sale of textbooks is 78.3 cents. The total expenditure per child for all school purposes is approximately \$38.31. The cost of textbooks is thus approximately 2 per cent of the total cost of maintenance, support, and equipment. The cost per child on the school population basis (5-18 years of age) is 56.6 cents; the annual per capita cost of textbooks on the total population basis is less than 15 cents.

These figures indicate that there is little ground for the fear sometimes expressed that the introduction of free textbooks will add greatly to the cost of the public school system and will greatly increase the rate of taxation for school purposes. As a matter of fact the cost for textbooks is a relatively small item in the total expenditure for school purposes.

Bureau of Education officials feel convinced that the figures obtained afford a trustworthy statement of the real facts about the size of the schoolbook business. The 43 firms from which data were obtained have

die probably 99 per cent of the total textbook sales in this country. Besides California, Kansas also now prints its own textbooks, but the plan was not in operation in 1913.

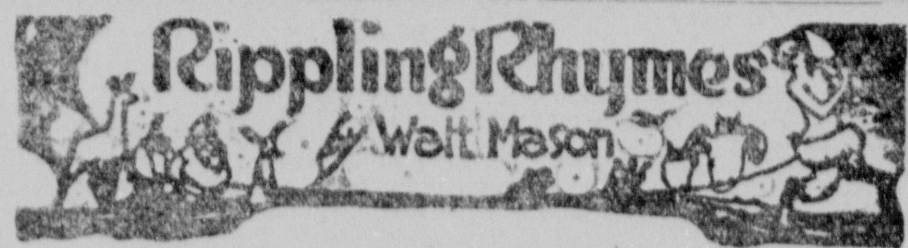

MONTANA HORSES MAKE BATTLEGROUND DELICACY

Dillon, Mont., June 16.—The Dillon horse sale opened this morning briskly, the agents for European powers bidding high for the steeds. The several thousand head put up this summer will be sold under the hammer today and tomorrow. The demand for war horses have shoved prices up to as high as \$175 and \$200 per head for the choicest animals. For the foreign buyers are providing a double necessity when they bid in high throughout Montana. Not only are the horses the best they can secure for war purposes, but they make fine eating, and are the choice delicacy of the menu at the front in France. Count Rene de Montion of France, aided by a corps of buyers throughout Montana and neighboring states, is rounding up all available horses. It is said that Montana has been enriched some \$3,000,000 since the war opened through its horse sales to the Europeans.

The Montana horses are especially good food, according to a buyer for the French government. All horses wounded on the battlefields are killed by the commissary men and served up as food. Thousands of horses are killed every week along the battle front and they then serve a further usefulness in the cook tents.

AT THE ARMY CAMPS.
Sparta, Wis., June 16.—Joint manoeuvres of the regular artillery and batteries from the National guard of several states will begin here today.

Monterey, Calif., June 16.—The training camp is the scene of activity today, when Battery A. of Oregon arrived for a ten day training period. Successful instructors have been provided from the regular army. Battery A is the oldest military organization on the Pacific coast.

THE JUNE BRIDE

Fair bride of June, white bride of June, as lovely as a summer moon, the sweetest pebble on the beach, a joy, a vision and a peach!

A truth it is—I know not why—that brides of August and July, of gusty March and placid May, must yield to you the right of way. All brides are daisies, when one tries their divers charms to analyze; they all are nature's noblest growth; when I see two I want them both; but still there's something out of tune, when brides loom up outside of June. The month's ordained and set aside and dedicated to the bride. In June the year is blithe and fair, and has no silver in its hair, the skies are bright, the roses bloom, the winds are soft, there is no gloom, and here's the newly wedded belle, who fits into the picture well! Ah, would it might be always June, when birdlets sing and zephyrs croon; but zephyrs' fall and tempest shrieks, and roses fade, and so do cheeks; the fleeting summer day deems, and Father Time will test all hearts. And when your bloom is gone away, may you be just as bright and gay as you are at your bridal noon, oh, bride of June, fair bride of June!

SENATORS WIN FINAL OF SERIES FROM SOX

POUND RUSSELL FOR ELEVEN SAFETIES

Chicagoans Get Only Four Safeties From Johnson, Who Strikes Out Eight Men and Does Not Give a Pass.

Washington, June 16.—Washington batted Russell for eleven hits while Chicago got only four safeties off Johnson and the locals won the last game of the series. Johnson struck out eight men and did not give a base on balls, though he hit one man.

GIVE HEARING TO LOVE-MAD GUNMAN. Newton, Mass., June 16.—Charles E. Warren, a chauffeur, who shot and killed Walter G. Green, a restaurant owner and wounded Ruby H. Stewart, a waitress, to whom he had formerly been engaged, will be given a hearing today, on charges of murder and assault with a dangerous weapon.

The love-mad youth pulled a gun in the restaurant and shot at the girl who had killed him. He followed her as she ran through the kitchen and shot dead her employer who came to the rescue. Still pursuing his quarry he brought her down with the last bullet in his revolver.

BRAVES HIT CHENEY HARD; DEFEAT CUBS

TYLER DOES GOOD WORK IN PINCHES.

Fast Fielding of Teammates Aids Boston Twirler—Giants Take a Twelve Inning Game From Cincinnati.

Chicago, June 16.—Battling Cheney hard in the fifth inning Boston won its first victory of the season over Chicago. Pierce had two magnificent runless during his stay on the mound but Tyler puzzled the Cubs when they got men on bases and fast fielding helped him out of the pinches.

I Treat Chronic Disease

WITH MY NEW NEUROPATHIC SYSTEM OF TREATMENT, I WILL BE AT THE HOTEL DUNLAP FROM 9 A. M. TUESDAY, JUNE 22, UNTIL 3:30 P. M. WEDNESDAY, JUNE 23.

IF YOU SUFFER, COME AND CONSULT ME FREE.

Dr. Edwin O. Gable.

My neuropathic system of treatment means treatment through the nerves and circulation and relieving congestion. All diseased conditions are prolonged by disturbance of the circulation, congestion, pressure on, and weakening of the nerves; pressure on the glands or thickening of the tissues. The Neuropathic system of treatment cures chronic conditions by giving renewed activity to the vital forces in the nerves, renewing circulation, relieving congestion and in this manner causes absorption of the disease deposits, removing swellings and thickening of the tissues and restoring normal conditions. No organ can remain diseased when the blood is circulating normally through it. This is the principal on which this treatment is founded. No disease should be incurable as long as the tissues are not too badly destroyed. Disease and weakness in any portion of the body should be curable up to that stage.

I have had the greatest success in curing many cases of all manner of weakness and nervous troubles of the heart, pain around the heart, shortness of breath, palpitation, irregular pulse and fainting spells. Read what Mr. Watkins has to say:

April 21, 1915.

To Whom it May Concern:—

I had been a sufferer with asthma and heart trouble since childhood and for the last four years had suffered agonies with it almost continuously. I could not sleep nor work and on the slightest exertion would have to gasp for breath, had smothering spells and dizzy spells and at times felt that the end had come. I had tried many doctors and treatments without any benefit, but three months ago I decided to consult Dr. E. O. Gable and started treatment with him, and since then have improved steadily and am now feeling fine, have no more of the old awful symptoms and know that I am cured. I can honestly and cheerfully recommend any one suffering as I did to him for honest treatment, for he has done wonders for me.

J. H. WATKINS,
R. C. Mattoon, Illinois.

This is but one of the many cases that show the great cures I am making with this new system of treatment.

I have had wonderful success in curing all curable forms of kidney troubles, congestion of the kidneys, Backache, Clogging up of the Kidneys, Irritation of the Bladder, Catarrh of the Bladder, Pain in the Bladder, and all weaknesses connected with these organs. I have had great success in curing Rheumatism, both acute and chronic, cleansing the rheumatic poison from the blood, creating new, healthy conditions, so that they are completely relieved. It is very successful in blood diseases, skin troubles, such as Eczema, Pimples, etc. It gives immediate relief to Stomach Troubles, Dyspepsia, Fermentation, Constipation and Liver Troubles, Nervous Disease and most forms of Chronic Disease and Weakness of the Eyes, Catarrh and Deafness, Head Noises and Sick Headache.

I have had the greatest success in curing many old chronic cases where other treatments had failed. No matter how long you have suffered or what your disease is, I ask you to come to me. I will examine you and tell you frankly whether or not you can be cured by this new system of treatment. Many people have come to me in your city. They had about given up hope, and have been restored to health by me. I can give as many private references as you wish of the great results that I am getting with this system of treatment. Remember, I accept no case by mail. I must make a complete examination of the case first. I do this for you free of charge on this trip.

FOREIGN CORRESPONDENCE. (By Associated Press)

London, June 15.—The 15th per cent war bonus granted by the board of arbitration to the English coal miners has now gone into effect. On the same day the mine owners announced an advance of 75 cents per ton in the price of coal at the mines. The price of coal is now about \$2.50 a ton above the price asked twelve months ago.

London, June 15.—All police stations in London have been equipped with respirators which will be served out to patrolmen and special constables as a protection against gas bombs in case of a Zeppelin raid on the metropolis.

The Hague, June 15.—(Correspondence of the Associated Press.)—An international congress of socialists is to be attempted at The Hague early in July. All the neutral countries will be represented and delegations have already been selected to represent England and Germany, but it is not yet certain that Russia, France and Belgium will participate. The Russian socialist leaders have accepted the invitation subject to certain special conditions. The Belgian leader, M. Vandervelde, has refused point blank to have anything to do with any conference in which Germany participates. The French socialist and syndicalists also declined the invitation in the first place, but M. Orlino Morgari, leader of the Italian neutralist party, has gone to Paris in hopes of persuading them to reconsider. Austria and Hungary will be represented if it is possible for their delegates to get through Germany for this purpose.

The leading German delegates will be Messrs. Scheidemann and Bernstein. The English delegates, although already chosen, have not been announced. They include, however, representatives of both pro-war and anti-war movements in the British labor party.

The preliminary organizations of the congress is under charge of the Swiss socialists. The tentative platform, which is understood to have received the approval of committees in Germany, Austria, England, Italy and the Scandinavian countries, contains the following demands relating to the European war:

1. Evacuation of Belgian and French territory and indemnity to Belgium.
2. Suppression in future of all secret treaties.
3. Immediate limitation of armaments by all countries, with a view to ultimately abolishing altogether all armed forces of individual states.
4. Obligatory arbitration and conciliation in cases of dispute between states.
5. Absolute right of all small nationalities to decide their future destiny; this decision to be made a matter of referendum in which all adult males and females shall participate.

According to reports reaching socialist headquarters here, the German government's attitude toward the party has been growing more severe during the past two months. A number of socialist newspapers have been suppressed and many socialist meetings have been prohibited or allowed only under strict police supervision. At Dusseldorf, which is said to be the center of a pronounced peace propaganda, there have been frequent police raids and searches of socialist houses.

A number of socialist meetings have been held in Bavaria, Wurtemberg, Baden, Hesse and the Rhine provinces recently to discuss the rise in the prices of many of the necessities of life. Altogether more than sixty meetings were held within a few days, and many of the speakers dealt very frankly with the broader of the war and its problems. In more than forty of these meetings resolutions were adopted which amounted to a demand for the speedy conclusion of peace. Some of the speeches were strongly anti-war and the whole movement was regarded by the military authorities as seditious. Newspapers were prohibited from quoting the terms of the resolutions passed or from giving any extended reports of the speeches, and the Volksfreund, a socialist journal published at Stuttgart, was suppressed for referring too freely to the tone of the demonstration.

Tarnow, Austrian Galicia, June 15.—(Correspondence of the Associated Press.)—The German 42-centimeter mortars, with which Liege was battered into submission, are declared not to have been as effective as the Austro-Hungarian weapons of the same calibre, two of which were used against the Russian troops in Tarnow in the great May victory in West Galicia. They have left a few, but unimpaired, signs of their power in the shape of demolished houses and big craters in Tarnow, fired at a range of from five to eight miles. The first shell landing in the city at the time it was occupied as a Russian headquarters, caused the Russian general and his staff to abandon their comfortable quarters in Tarnow, the largest city in the radius of many miles, and decamp to a spot ten miles in the rear. Thereafter the Austrians fired only five shots more from their big mortars into the city, for it is, after all, an Austrian town and they had no desire to damage unnecessarily their own property.

As the advancing Austro-Hungarian arm slowly pushed forward against Tarnow, the spot to which the Russians clung longest during the big May battle in an attempt to save the enormous quantity of supplies stored in this vicinity and to give other parts of their army a better chance to retreat undisturbed, the big 16-inch twins were twice moved forward to spots from which they could drop shells into the supply trains and on the men attempting to save the stores.

The correspondent of the Associated Press, now visiting the battle

fields in western and middle Galicia on which the great victory of the allied German and Austro-Hungarian armies was won, has not been permitted to see the new guns, but he has seen the sites from which they were fired and the destruction caused by the shells. At one place the guns were concealed behind a village, where the glazier is now replacing window panes destroyed by the concussion of the discharge. At another place the guns were emplaced near a railroad station, this spot having been chosen for convenience in erecting the guns in their foundations of cement, laid in the third site they were located in a valley.

In Tarnow one shot struck, apparently by error, a peasant's house of brick. It is now a mere mass of bricks, curiously level with the ground, house and all having apparently been swallowed up in the crater made by the bursting shell. Three persons were killed in this house. A block away is one of the city schools, which the Austrians believed rightly was being used as quarters for Russian soldiers. A gaping cliff 30 feet wide and extending from cellar to roof of the four-story building, shows with what precision the gunners found their mark. A second school building half a mile away was hit squarely on the roof. The wall on the side toward the courtyard is torn out bodily. On the side facing the street a hole 20 feet in diameter was drilled out neatly in the thick brick and concrete wall, the aperture being as nicely rounded as if the circle had been laid out with a pair of compasses. The brick work circle came out with such accuracy and force that it has left its imprint again as a carefully rounded semicircle in the high fence of grating iron before the school building. The roof is, of course, gone and from various windows the interior wood-work projects in tangled masses.

Another shell struck the cavalry barracks in the great courtyard in which Russian soldiers at the moment were busily loading supplies for the retreat. Horses and men were blown to pieces by the air pressure from the explosion or killed by the shower of bricks, roof-tiles and fragments of shell. In the low one-story building surrounding the barrack square is at one point a great gap which the correspondent paced out as 24 ards wide, the measure of the force of the explosion.

The new 42-centimeter shells weigh over 2,500 pounds—more than those of the Krupp gun, and each shell costs over \$800.

Rotterdam, June 15.—(Correspondence of the Associated Press.)—Official predication is made by the Rotterdam chamber of commerce that "the shipping at this port has been reduced to such an extent that it may safely be stated that it will not recover its former status in less than five years."

This comment is made in the annual report of the chamber of commerce, which shows that during the year 1914, five months of which were affected by the war, the number of ships clearing in and out of this port was reduced tremendously.

"It is feared," the report adds, "that 1915 will be even more unfavorable if this tremendous universal struggle is not terminated." The weekly clearance in and out of the Nieuwe Waterweg, the channel which leads to Rotterdam, is now reduced to about 90 ships of all kinds, as compared with a weekly business of over 250 ships a year ago.

During the year ending December 31 last, 15,842 steamers and 284 sailing vessels, aggregating 19,873,646 registered tons, passed through the Nieuwe Waterweg. In 1913, however, 22,178 steamers and 467 sailing vessels, totaling 2,545,475 net registered tons, were cleared in and out. This is what five months of hostilities did to a commerce that had previously been growing every year by leaps and bounds. Even the number of fishing craft was 3,387 in 1914 as against 3,934 in 1913. The only gain for the year 1914 was one in average tonnage, which increased 1.3 per cent over the year before.

In Rhine shipping, however, the report does not show the port of Rotterdam to have suffered so severely. In 1911 Rotterdam claimed 82 per cent of the business done between Dutch ports and Germany; in 1912 the figure was 81 per cent, in 1913 81.5 per cent, while in 1914 it had dropped to only 78.5 per cent. In 1911 Rotterdam did 19,042,847 tons of business with Germany via the Rhine. This was the highest figure ever known. In 1914, notwithstanding the war, there was 15,330,882 tons of business done between Rotterdam and the Rhine cities.

Rotterdam is a port, pure and simple, albeit a great one. It is new, it is ugly, it is noisy, it is dear. Few people who can afford to live elsewhere live in Rotterdam. An increasing number of those whose daily business requires their presence in Rotterdam live in The Hague, and go over and back every day by electric tram—a pleasant journey of only twenty minutes. The Rotterdamers are, however, inordinately proud of their harbors. They are the property, of course, of the city; every possible public service in Holland is jealous administered on the basis of local autonomy. The modern improvements of the main harbor, which include besides the new way for the very newest appliances for loading and unloading, were begun in 1890 and cost the city \$21,000,000.

At present work is going rapidly forward on what is known as the Waal harbor, the latest addition to the list of railway, warehouse, petroleum, inland commerce, Rhine salmon fisheries, North Sea herring fisheries, Rhine-Meuse and other special harbors. It is intended as a transshipment center for Rhine traffic outward bound and draws its name from the river Waal, which is the name the Dutch give to the lower Rhine as it passes through Holland.

Tokio, June 15.—Governor Francisco B. Harrison of the Philippine Is-

lands, who is visiting Japan, has had conferences with Count Okuma, the prime minister, and Baron Kato, the minister for foreign affairs. Although the governor's visits were calls of etiquette, the promotion of the friendly relations between the United States and Japan were discussed at length. The development of trade between Japan, the Philippines and the United States was especially dwelt upon.

The Japanese are constantly emphasizing their desire to create wide business relations with the United States, which they regard as a great practical reason for the tightening of the bonds of friendship.

Governor Harrison has just left for China with Mrs. Harrison, but expects to return here later to rejoin his children, who will spend the summer at the seashore resort of Kanakura.

A BIG RAT STORY.

Mr. Ames, who lives a short distance north of the city, vouches for the following: Sometime since he too possession of the place on which he now lives and not wishing to build a corn crib made use of a stall in the horse barn for the purpose. This spring and summer he noticed eggs, young chickens and even old ones too were mysteriously missing and investigation led him to suspect rats under the improvised corn crib. He removed the corn and then set up boards to prevent the rats from escaping and began business. Each board in the crib floor he raised disclosed a bevy of rats. Five were quick enough to escape but Mrs. Ames' Scotch collie caught 155 grown rats, some very large, and 35 small ones. The dog had to be alert but he did the work.

for buying at bargain prices, having presented themselves in the wholesale markets on account of overstocking by the jobbers, we have availed ourselves of them, and all this new merchandise, which has lately arrived, will be included in this sale.

Here Are the Facts in the Case

Actuated by the early outlook for a good spring and summer business, we, like many other merchants, bought very liberally, and as a result our shelves are loaded with NEW merchandise. Owing to the backwardness of the season and contributory unfavorable trade conditions our expectations were not realized, and we are now confronted with the alternative of either carrying over the major portion of our stock or else to make such radical price concessions as will clear our shelves NOW. We have decided to do the latter, appreciating the fact that to solve this problem we must put forth the greatest effort of our lives and simply CUT THE LIFE OUT OF PRICES. It means a tremendous loss to us, but their appears no other way out of the dilemma. Therefore value and cost will receive scant consideration and the public may rest assured that no value sacrifice shall be considered too great to make these 14 days.

Brief News Close to Home

New Bank for Havana—The contract has been let for the new \$200,000 home of the Mason county bank in Havana. The design of the bank is Corinthian. The building, one story in height, will be 38x23x38; and the front will have two entrances and heavy plate and prism glass. The interior will be in plaster grey and the furnishings will be white Italian statuary marble, mahogany, birch and bronze metal with tiled ceiling.

Boy Trampled to Death—Horses Sunday trampled and killed a boy four years old, the son of George Reifstaek, who lives seven miles northeast of Sadorus. The child lived one hour after the accident. Doctors were summoned from Tolono and Champaign but could do nothing for the boy.

Given Tongue Lashing—John W. Workman, a prominent farmer near Curran, was given a severe tongue lashing yesterday by Judge J. Otis Humphrey in the United States district court, and was also fined \$500 and costs, on charges of intimidating federal officers and failing to make a return of income tax.

Found Missing Sacks—Mail sack robbers who operated in Springfield last winter, selected the Sangamon river as a desirable place for depositing letters which did not contain valuables. A mutilated sack, containing letters addressed to Middletown and other points in Illinois, was found yesterday and turned over to postal inspectors.

Turned Water Off—Collector of Water Rates Bowe yesterday turned off the water at half a dozen houses in Springfield as a result of the failure of the consumers to pay their bills. Thirty shut-off notices were sent out recently, fixing Tuesday as the final opportunity for payment in the case in question. It will cost consumers one dollar to have the water turned on again.

Was Electrocuted—A most distressing accident occurred at an early hour Monday morning, when Cecil Short, who was a student at the Interurban station, was fatally injured by coming in contact with the high tension wire at Mackinaw.

Gas Wells at Staunton—The latest report from the Staunton gas well is that it was successfully capped Sunday. The flow of gas is so strong that it was thought dangerous to attempt to drill it deeper, and the drill will be removed a distance of 400 feet and another well sunk. The flow of gas is so strong that a dime clipped into the casing tube is thrown out by the force of the gas. Oil men from everywhere are pouring into the field and many leases are being taken.

Family Poisoned—A family gathering was held at the home of John Whorton on South Main street, Sunday. Shortly after dinner Dr. H. C. Campbell was summoned to attend two of the Whorton children, and while he was administering to these, others took sick in rapid succession, and the doctor was pretty busy for the greater part of the afternoon, attending to patients on his hands out of thirteen who partook of the dinner.

"Q" Helps "Safety First"—The C. B. & Q. company, through its division superintendent, F. Cone, has agreed to help along with the "safety first" movement by joining in with the Burlington Way auto trail officials in marking their crossings with danger signals. They will use two at Upper Alton, two at Medora, four at Rockbridge, two at Greenfield, four at Wrights; two at White Hall, two at Chapin and six at Archville.

Drafted Into Army—Norman McNeill, son of the late Daniel Mc-

Neill of Chandlerville, prominent Cass county pioneer, who went to Canada to engage in farming, has been drafted into the English army, leaving for the front with his company this week. McNeill graduated in the high school in Chandlerville a few years ago, and while here enjoyed a wide reputation as an all round athlete, representing the county at various athletic meets held by the big schools of the state.

Opium, Dangerous to Have—Opium is a dangerous thing to have in your possession, even though a person is superstitious and carries a rabbit foot to ward off any evils. Henry Davis was a superstitious negro of Alton, and always "toted" his rabbit's foot for "good luck." But the federal grand jury declared Tuesday that Henry also carried opium for his friends. So he was indicted.

Will Convince Son—To Convince his 16-year-old son that there is a place where the sun is visible for 48 hours without setting and where it seems to rotate in the sky, Jerome G. Willis, a wealthy business man of Vandallia, has gone to Fort Yukon, Alaska, where this sight may be witnessed.

Quarantine Lifted—The quarantine on the "kiddies" was raised Tuesday morning in Bluffs, and a bunch of the youngsters, were so happy that they paraded the streets headed by a boy with a drum. The past three weeks have been long and tedious ones for them, and the turning them loose was certainly a great event.

Found Valuable Pearl—A pearl valued at \$1,500 was found near Catfish creek near Dubuque and is said by those in a position to know to be the finest one ever taken from three clam beds which have produced many valuable pearls. It is said several clam fishermen have made small fortunes at this place. The find was made by Walt Carson who has been quite fortunate and has one of the finest collections of pearls and baroques to be found on the Mississippi river.

Impersonated Official—Frank Stodgell of Rushville was convicted in the United States district court of impersonating a government officer, and sentenced to a year and one day in the federal prison at Fort Leavenworth. Stodgell was said to have written several letters to W. A. Herrod of Buda, who was in his debt to the extent of \$25, telling him warrants had been sworn out for his arrest and he would be taken in custody by United States Deputy Marshal E. R. Moore unless he paid the money immediately.

Ford Shoots Self—Bob Ford, a farm hand who went to Mason City six years ago from Kentucky, ended his life in a shooting gallery in Peoria Saturday night. He entered the gallery and asked for a revolver. When a woman was handed to him he ended his life.

Overcome by Heat—William Fitzsimmons of Bloomington, employed as an engineer by the Chicago & Alton railroad, was overcome by heat in Springfield and is in a serious condition at Springfield hospital. Fitzsimmons is 29 years old. He is the first heat victim of the year in Springfield.

Wed on Short Notice—Miss Mary Messer, Milwaukee, visiting friends here Tuesday met another friend, Henry M. Collins of Oklahoma City. An hour later the couple told mutual friends they had become engaged since meeting and also had been married. Judge Ellis performed the ceremony in the court house.

More Automobile Than \$1600 Ever Bought Before

A six passenger, 135 inch wheel base, streamline touring car, electrically started and lighted; completely equipped. Don't purchase a little short Six that will bump you into nervous exhaustion every time you take it out into the country—Don't buy a makeshift Six that will keep you in a cramped position every time you use it but investigate this great, big beauty. The most car for the money that has ever been offered to the American public. It is built by one of the first men in the automobile industry. The motor and beautiful design of the car is due to the genius of Monsieur Rene Petard, one of Europe's foremost automobile engineers. Combining the work of these two men we have produced a masterpiece; a car that you will always be proud to have. Compare it with any automobile on the market, even those costing twice as much and you will see that in reality it is a \$3000 car that sells for \$1600. Information or demonstration on request.

NUNES MURDER CASE MOVES ALONG IN CIRCUIT COURT

Testimony Concerning Statement Made at Hospital by Antonio Nunes Barred by Judge Burton—Point Occasioned Long Argument.

The trial of Frank Nunes, charged with the murder of his father, Antonio Nunes, is still grinding along in the circuit court. The principal witnesses examined Wednesday were Samuel Nunes for the prosecution; Mrs. Mary Nunes, Charles Nunes, Dr. J. U. Day and Mrs. Grace Nunes for the defense. The evidence thus far introduced is practically the same as that brought out in the former trial of the defendant at the November term of court.

Samuel Nunes yesterday was allowed to testify as to a statement made by him to Antonio Nunes just a few days prior to his death, in which the deceased said that his boys had been wanting to "get him" for sometime and that now he guessed they had succeeded. Tuesday T. Forrest Smith also testified to a statement made to him by Antonio Nunes at the hospital, and several hours of the court's time yesterday was occupied in hearing argument by counsel over the admissibility of this evidence. After hearing the argument, Judge Burton ruled out the testimony of both Mr. Smith and Mr. Nunes as related to the statements made to them by the deceased, and he instructed the jury that they were not to be influenced in reaching their verdict by the statements which they had heard.

J. Marshall Miller made the chief argument in behalf of Nunes in asking for the exclusion of the testimony. He cited authorities to show that a dying declaration was not admissible unless the person making it was known to feel that death was certain and near at hand. The evidence did not show that when Antonio Nunes made the statements attributed to him that he felt that death was at hand. J. O. Priest argued the point at issue on behalf of the state.

It seems to be the purpose of the defense not only to show that the defendant acted in self defense, but also that the primary cause of Antonio Nunes' death was pneumonia rather than the gun shot wound inflicted by his son.

The following docket entries were made by Judge Burton during the day:

Law Cases.
Addie L. Heflin vs. G. A. Waggoner et al; assumpsit. Cause settled by agreement and dismissed at the cost of defendants.
E. E. Fox vs. the Indiana & Ohio Live Stock Insurance company; as-

sumpsit. By agreement of parties jury waived and case to be tried by the court.

Chancery.
Sallie B. Orear vs. Farmers' State Bank & Trust company; partition. Demurrer overruled; leave to defendant to plead or amend over.
Thomas Stubblefield vs. Mary Cranfield et al; 141. Report of sale approved and judgment for deficiency of \$79.09.

WONDERFUL BARGAINS CAN BE HAD AT HERMAN'S PUBLIC SALE IN ALL DEPARTMENTS FOR ONLY DEPENDABLE MERCHANDISE.

CHILDREN'S PARTY.
Mrs. Geo. Wolke entertained a number of children Tuesday afternoon, in honor of tenth birthday of her daughter Jeannette Adeline Wolke. The house was decorated in pink and white and there was a birthday cake lighted with ten candles, a gift of Misses Agnes and Louise Freitag of New Berlin. "Babe" Brown, just learning to talk caused considerable merriment when he delivered his maiden speech of about ten words in an amusing manner. The boys and girls were given a ride about the city by J. G. Strawn and Elmer Wolke in Mitchell automobiles, Nichols park being one of the places visited.

The children present followed: Clea Flynn, Mary Ethel Hamilton, Virginia Osborne, Frances Massey, Theodosia Griffith, Troy Massey, Lucella Simms, Mary Sauter, Russell Sherman, Ruth Roberts, Earl Smith, Leroy Barnard, Eding Brown and Burnett Brown.

POTATOES AND THE WEATHER.

Mr. Ornellas who has large gardening interests stated yesterday in speaking of the crops and weather conditions, that he had noticed that potatoes that had been planted in March especially in low land had rotted while those planted much later were turning out much better results. Prospects for a large crop is good at this time and potato beetle is being retarded in his depredations on the growing vines by the frequent rains.

SCHOOL OF INSTRUCTION.

Mrs. Myrtle Tandy went to Mason City last night to hold a school of instruction in the Rebekah lodge. From there she will go to Blooming-ton to attend the annual picnic of the Orphans' home to be held at Miller's park.

RECEIVING CISTERN AT NORTH STATION IS BEING CLEANED

Supply From South Station While This Work is in Progress—More Wells to be Sunk and Equipped With Centrifugal Pumps.

Commissioner Vasconcellos has a force of men cleaning the storage cistern at the north side pumping station and has found the work greatly needed. More than a foot of slime had collected in the bottom of the cistern, and the cemented walls were very much in the need of repair. As it was necessary to pump for a short time at least from the south side station, and as the cleaning of the cistern was needed, Mr. Vasconcellos determined to do it at this time. The sediment has come with passing time from the iron pipes, from seepage, and from the top of the cistern, until really the condition was very bad and unhealthy. It is the hope that before today is over the cistern will be in renewed and sanitary condition and can be used again for storage purposes.

Mr. Vasconcellos and Mayor Rodgers and other members of the council have looked over conditions at the north side station and it is the intention to sink other wells there just as speedily as possible, probably within the next three or four weeks. As previously indicated it will be the plan to put down wells of such diameter that centrifugal pumps can be used instead of the reciprocating type. A centrifugal pump with motor attachment costs about \$100, while the reciprocating type costs from \$2200 to \$2500.

Another advantage for the wider diameter well and the centrifugal pump is that strainers of a different type can be used. The brass strainers with narrow mesh necessary for the reciprocating pump are not only expensive to begin with, but are very likely to be clogged with sand and refuse and so interfere with the flow from the wells. The expense of taking out strainers of this kind and cleaning them is also large. Still another disadvantage in the use of the reciprocating type of pump is the constant wearing away of brass parts which are expensive. With the centrifugal pump a different type of strainer is used and the sand or gravel in the well does not clog the strainer and has no effect upon the wearing parts of the pump. All of the members of the council have faith in the north side station and it is proposed to develop a supply of water there speedily and on belief is that for a comparatively small expenditure that enough wells can be sunk to provide for the whole city supply without additions from the lake or creek. Under present conditions it is possible to pump city from four wells and they do not produce enough to allow the proper working of the pumps or enough for the daily city consumption.

IT IS A NOTABLE FACT THAT PEOPLE KNOW GOOD BARGAINS AND GOOD MERCHANDISE FROM THE LARGE ATTENDANCE AT HERMAN'S PUBLIC SALE.

IN HONOR OF BIRTHDAY.

A surprise party was given recently to Mrs. Mattie Carpenter in honor of the 15th birthday of her son Earl. The party was at the home of his grandmother, Mrs. Alice Early, 719 North Cox street. In the peanut contest the prizes went to Ethel Wallace and Bernice Scruggs. The house was decorated in the colors pink, green, orange and black and the decorators were Katherine Corbin and George Miller. Earl received a number of presents. Those who assisted in entertaining were Mrs. R. Jackson, Mrs. H. Davis and Miss Nellie Early. Refreshments were served. Those present were Katherine Corbin, Bernice Scruggs, Ethel and Dimple Black, Leon Brannum, Florence Johnson, Ethel and Burlah Wallace, Elmore Lafayette, Ollie Majors, Pearl Nevels, Annie Bell Butler, Earl Carpenter, George Miller, Fred Davis, Emily Coleman, Carey Wheeler, Robert Allen, Geo. Butler, Sanford Sutton, Hurley Smith and Allen Timberlick.

UNLOADING SALE BEGINS.

Hillier's dry goods store will begin a great fourteen day unloading sale Friday. A special announcement elsewhere in this paper emphasizes some of the extraordinary values which are included in the very exceptional offerings. Mr. Hillier bought largely for this season and the continued cool weather has made this unloading sale advisable. A sale announcement from this store is always founded on definite facts and the public well knows this to be true. There is quality too, in everything offered at the Hillier store and surely a great buying chance will begin tomorrow.

NOTICE.

The public is hereby warned against the discharge of fire crackers and fire arms before July 4th. The ordinance governing the matter will be strictly enforced.

George P. Davis, Chief of Police.
